

REMARKS

Claims 1-14 are all the claims presently pending in the application. There are no prior art rejections. Applicants gratefully acknowledge the Examiner's indication that claims 1-13 would be allowable if rewritten to overcome rejections under 35 U.S.C. § 112, second paragraph.

The claims 1, 4, 6-7, 8, 10, and 12-13 and the Abstract have been amended in a manner believed fully responsive to all points raised by the Examiner, thereby to pass all of the claims to allowance. Further, new claim 14 has been added which includes the allowable subject matter of claim 1 and thus is also believed allowable. No new matter has been added.

It is noted that the claim amendments herein are made only for more particularly pointing out the invention, and not for distinguishing the invention over the prior art, narrowing the claims, or for any statutory requirements of patentability.

Further, it is noted that, notwithstanding any claim amendments made herein, Applicants' intent is to encompass equivalents of all claim elements, even if amended herein or later during prosecution.

FORMAL MATTERS AND CONCLUSION

The Abstract has been amended to be reflective of the claimed invention, and thus is believed to be an aid to subsequent searches by U.S. Patent Examiners.

In view of the foregoing, Applicants submit that claims 1-14, all the claims presently pending in the application, are patentably distinct over the prior art of record and are in condition for allowance. Should the Examiner find the application to be other than in
